DETAILED ACTION

Response to Arguments

1. Applicant's arguments, filed 07 June 2004 have been fully considered and are persuasive.

Allowable Subject Matter

2. **Claims 1-30** are allowed.
3. The present invention is directed toward a method and system for accessing a system without using a provided login facility. In the response filed 7 June 2004, the Applicant argues on page 13, 2nd paragraph, that Ault fails to teach or suggest in combination as claimed wherein the steps are performed without using the logon program to enable the client to logon to the server. In the argument, the Applicant states that Ault et al. teaches a system that prompts the browser user to login through a DCE user id and password. Each independent claim identifies the uniquely distinct feature "**the steps are performed without using the logon program to enable the client to logon to the server**". The Examiner agrees to the statements with regards to Ault et al., therefore it is clearly shown that Ault et al. fails to anticipate or render obvious the above underlined limitations.
4. Therefore, **claims 1,9, and 17** and the respective **dependent claims 2-8,10-16, and 18-30** are in condition for allowance.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
